# INTERNATIONAL WEEK MOLECULAR GENE TECHNOLOGY

## VIRTUAL INTERNATIONAL WEEK Monday 8th - Friday 12th March 2021

Target audience: Students of Agricultural Engineering, Chemistry, Chemical and Environmental Technology, Biochemistry, Applied Engineering

**The field of Molecular Gene Technology has multidisciplinary applications with significant roles in improving life. Our international week offers you the opportunity to learn about different applications of Molecular Gene Technology, addressing topics related to gene technology in industry, food production, plant and protein engineering.**

**no fees**

**Deadline registration – 15 de enero 2021**
